

EQUESTRIAN

Product overview

HIGH PERFORMANCE EQUESTRIAN TEXTILES

Baltex designs and manufactures a wide range of high performing Sports Protective Textiles, with manufacturing, research and development facilities in both the UK and Poland. Baltex also has a close working relationship with the University of Bolton in the UK, a world leader in the development of Technical Textiles.

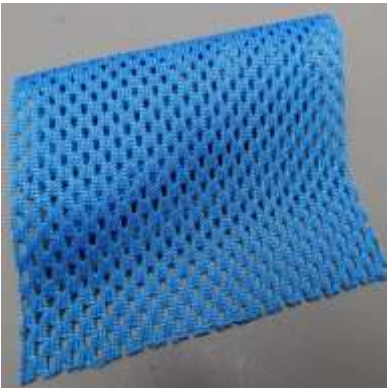

Since the foundation of the company in 1831, innovation has been at the heart of our business. In 2010 the company won the TI World Conference prize for innovation. The company has also won two Queen's Awards for International Trade. With more than 188 years of experience, Baltex is shaping the future of technical textiles.

2980
Warp Knit Polyester
Weight: 116-136g/m2
Width: MIN 187cm

M8950
Polyester 3D Mesh
Weight: 265g/m2
Width: 140cm

4169
Polyester Mesh
Weight: 320-370g/m2
Width: 150-153cm

3910
Coolmax Mesh
Weight: 200-220g/m2
Width: 160-170cm

7716
Polyester Mesh
Weight: 130-140g/m2
Width: 140-143cm

5712
Polyester Mesh
Weight: 380-420g/m2
Width: 150-160cm

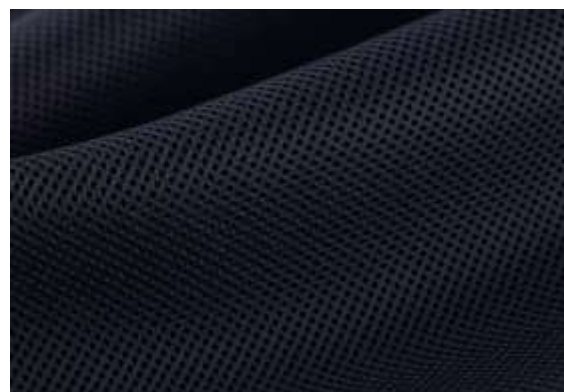

OUR CAPABILITIES

Baltex work with the following fibres: Meta-Aramid, Polyester, High Tenacity Polyester, Technora GTN and Nylon (Polyamide), we are interested in working on new development projects, any customer enquiry will be taken into consideration.

Some of the finishes we can produce: dyeing, fire retardancy, antibacterial and water-repellency.

We have full testing facilities in our Laboratory. Our approval to ISO 9000:2001 by Lloyds Register Quality Assurance has been part of our continuing drive to improve both the quality of our products and the level of customer service. We are approved for the supply of all warp-knitted and weft-knitted fabrics. Baltex will soon be accredited to EN ISO 14001.

M3730

Polyester Spacer

Weight: 300-320g/m²
Width: 148-152cm
Thickness: 3mm

E2001-170

Weft Knit Spacer

Weight: 465-515g/m²
Width: MIN 210cm
Thickness: 10mm

NPD 212

4-way Stretch Spacer

Weight: 475g/m²
Width: 135cm

M8180

Double Mesh Spacer

Weight: 550-620g/m²
Width: MIN 185cm
Thickness: 6mm

NPD 88

Spacer Fabric

Weight: 650-700g/m²
Width: 155-165cm
Thickness: 5.5-7mm

3250

Stretch Spacer

Weight: 380-420g/m²
Width: MIN 136cm
Thickness: MIN 2.5mm

SADDLE PADS

Baltex is a leading producer of 3d knitted fabrics in Europe. Spacer fabrics are three-dimensional fabrics that can be knitted to a thickness of over 30mm. When used in saddle pads, this technology will allow to distribute weight, allow maximum air flow which benefits the skin and will make the saddle leather more durable. This will help disperse shear and direct pressure, ideal for sensitive and cold backed horses.

PPE EQUIPMENT

Our fabrics can be used for a wide range of applications. One of them is Individual Protection, for example for Body Protectors. Thanks to its robustness, our knitted fabrics will provide comfort, breathability and be perfect for load bearing parts.

LEG BOOTS

The technology 3D spacer fabric is ideal for the design of leg boots. In addition to being breathable and lightweight, this material has got shock absorbing properties. Therefore, it will allow the body heat of the horse to go through as well as offering a cushioning effect which is extremely comfortable.

M3400

Polyester Spacer

Weight: 450-550g/m2
Width: 135-145cm

8660

Polyester FR Spacer

Weight: 310-360g/m2
Width: 170-180cm
Thickness: 2.5-3.5 mm

M3605

Polyester Spacer

Weight: 750-900g/m2
Width: 160-165cm
Thickness: MIN 6.5mm

7412

Polyester Spacer

Weight: 390-480g/m2
Width: 155-160cm
Thickness: 4.5-6mm

9190

Polyester Spacer

Weight: 690-760g/m2
Width: 137-143cm

8442

Breeze/PE Spacer

Weight: 240-280g/m2
Width: 145-155cm

OUR LATEST DEVELOPMENTS...

NPD 86

Recycled PE Spacer

Weight: 350-400g/m2
Width: 175-185cm
Thickness: 3mm

NPD 75

Polyester Spacer

Weight: 280-310g/m2
Width: 195-200cm
Thickness: 3mm

NPD 304

Recycled PE Spacer

Weight: 300-350g/m2
Width: 150-160cm
Thickness: 3mm

NPD 303

Polyester Spacer

Weight: 300-350g/m2
Width: 150-155cm
Thickness: 3mm
